BESPOKE SERVICES

If you want to give your home a facelift, but without the stress and fees of a full-blown interior design project, London-based interior design practice and furniture retailer, Canning & Sheridan, have come up with a clever idea. Perfectly in tune with today's cash-strapped mood, they have put together a new package: Interior Design Makeover in a Day. For a half-day (£275) or a full day (£550), a designer will visit your home, identify the style you are aiming for, short-list key furniture, lighting and accessories, draw a personalised floor plan to show how selections would fit in, and leave a shopping list of products and where to purchase them. **020 7232 2660** canningsheridan.co.uk

BOOK REVIEW

For those of us who do manage to escape overseas for the summer holidays, it's always inspiring to return home with fresh design influences. But even if you can't go abroad, *Spanish Style*, new from Merrell Publishing (£29.95), will set you off in the right direction. The book offers a truly eclectic view of contemporary Spanish styles, with a mix of over 20 beautifully photographed interiors, from a contemporary-meets-1970s style apartment in Madrid, to the clean, modern lines of a private home in Andalusia, and a fresh, simple artist's studio on the Costa Brava coast. This is a sourcebook dedicated to the style of Spain's elegant homes and hotels.
